### GANTT CHART

DATE: DECEMBER 15, 2025

**Project Title:** TRACE - Transfer Recognition and Automated Course Engine

**Project Start Date:**

November 1, 2025

**Projected Finish Date:**

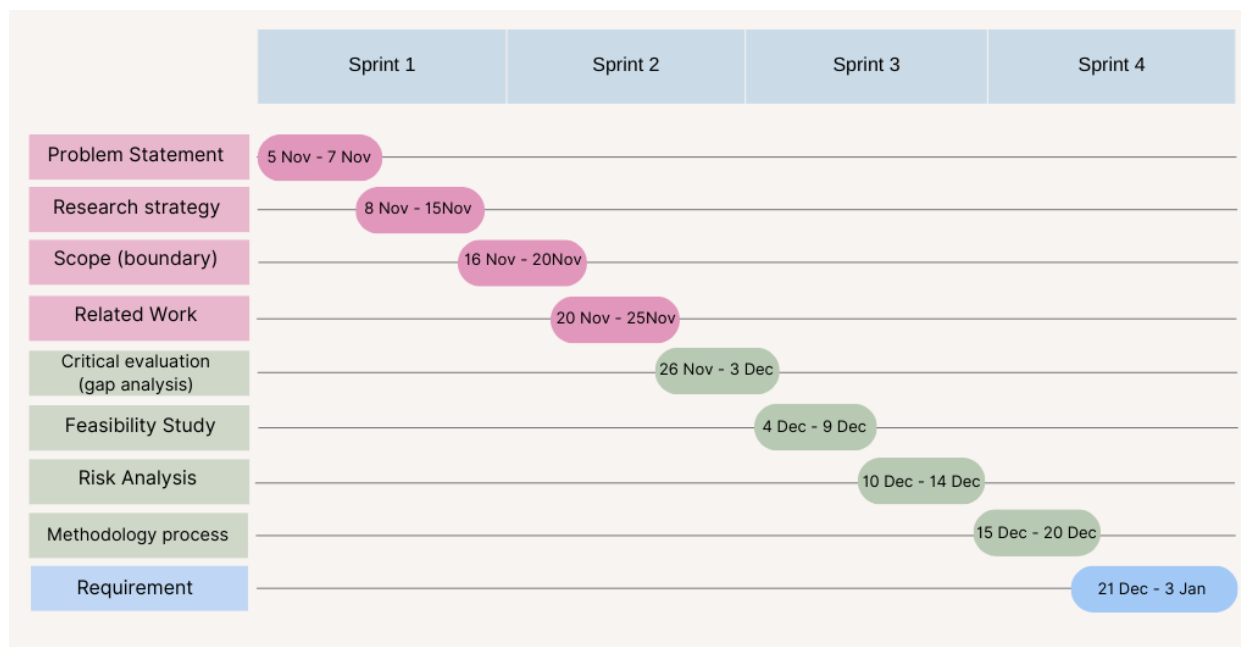

June 15, 2026

#### *Students*

Sdra Osama Mohammed Awameh	202210368
Rasha Khalid Waleed Alsaleh	202210632

*Amman - Jordan  
2025/2026*

The following Gantt chart illustrates the complete timeline for the Course Equivalency System , spanning from November 2025 to May 2026. The project is organized using Agile-Scrum methodology with two-week sprint cycles, divided into two main phases: Graduation Project I (November 2025 - January 2026) focusing on research, requirements analysis, Graduation Project II (February 2026 - May 2026) dedicated to system design , implementation, testing, and deployment. The chart displays all project activities, sprint allocations, team member responsibilities, task durations each sprint is clearly labeled and colored to distinguish between different development phases and their corresponding tasks.
